

WHAT IS CLAIMED:

1. A game of chance comprising:
an elongated play piece having a game portion end and an
5 identification portion end,
a serial number printed on the identification portion end,
a first play combination printed on the game portion end at a
first distance from the serial number, and
a second play combination printed on the game portion end at a
10 second distance from the serial number, the second distance being greater than the
first distance,
wherein the play piece is folded to form an unused position
wherein the serial number is revealed and the first and second play combinations are
concealed, and the play piece can be unfolded to first reveal the first play combination
15 and then the second play combination.
2. The game of chance of claim 1, wherein the play piece is a
single ply material.
3. The game of chance of claim 1, further comprising a third play
combination printed on the game portion, the third combination being separated from
20 the serial number by a third distance that is greater than the second distance.
4. The game of chance of claim 1, wherein the play piece is sealed
to prevent the accidental revealing of the game portion.
5. The game of chance of claim 4, wherein the play piece is sealed
with a band.
- 25 6. The game of chance of claim 4, wherein the play piece is sealed
with crimping.
7. The game of chance of claim 4, wherein the play piece is sealed
with glue.
8. A game of chance comprising:
30 a play piece having a game portion and an identification
portion,

a serial number printed on the identification portion,
a concealable first play combination printed on the game
portion, and

5 a concealable second play combination printed on the game
portion, the first play combination being concealed when the second play combination
is concealed,

wherein the play piece is configured such that the serial number
is revealed and the first and second play combinations are concealed when the play
piece is in its unused position and the first and second play combinations are revealed
10 in sequence by opening the play piece.

9. The game of chance of claim 8, wherein the play piece is a
single piece of paper.

10. The game of chance of claim 8, further comprising a third play
combination printed on the game portion, the third combination being concealed when
15 the play piece is in its unused position and the third combination being revealed when
the play piece is opened.

11. The game of chance of claim 8, wherein the play piece is sealed
to prevent the accidental revealing of the game portion.

12. The game of chance of claim 8, wherein the game portion is
20 revealed when the play piece is used.

13. The game of chance of claim 12, wherein the play piece is
unfolded during use to reveal the game portion.

14. The game of chance of claim 8, further comprising an unused
portion disposed between the serial number and the first play combination.

25 15. The game of chance of claim 14, wherein the unused portion is
revealed by unfolding the play piece by a single fold.

16. A game of chance comprising:
a play piece having a game portion and an identification
portion,

30 a serial number printed on the identification portion,
a first play combination printed on the game portion and
revealable during play, and

a second play combination printed on the game portion, the second play combination being separated from the first play combination and being separately revealable from the first play combination.

17. The game of chance of claim 16, wherein the serial number is
5 further printed below each play combination.

18. A method of forming a play piece for a game of chance, the method comprising the steps of:

printing a plurality of play combinations on the play piece, and
folding the play piece such that the plurality of play
10 combinations is concealed in sequence.

19. The method of claim 18, wherein the play piece is folded along a line disposed between two of the plurality of printed play combinations.

20. The method of claim 18, further comprising the step of sealing the folded play piece in the folded position.

21. The method of claim 20, wherein the sealing step comprises
15 one of banding, crimping, and gluing the play piece.

22. The method of claim 18, further comprising the step of printing a serial number under each play combination.
